SouthWare Announces the Latest—and Most Powerful—Upgrade to the SouthWare Excellence Series™

June 30, 2008 – AUBURN, AL – SouthWare Innovations, Inc., a leading provider of integrated business and financial management software, announces the release of Revision 14 to our SouthWare Excellence Series™. This upgrade's new functionality empowers businesses to work faster and more efficiently, which in turn, helps them grow stronger and more profitable.

“The upgrades and improvements to ‘Rev 14’ are based on valuable feedback from our end-users,” said Tim Sanders, Executive Vice President and head of program development. “Including their ideas in every revision has helped us create the most powerful and flexible business and financial management product in the business.”

Revision 14 includes a Blackberry® Mobile Interface module as well as improved ODBC and SQL capabilities. We've also equipped it with the following exciting new capabilities:

- Powerful line item and tracking selector tools
- Temporary serial numbers
- New security features including global location and salesman security screening of data
- Assembly component/sub-component planning analysis
- Tracking of Vendor Credit Allowances
- Improved Purchasing/Payables integration
- Credits for Third-Party Vendor Payments
- TaskLinks to zoom between tasks and documents

About SouthWare

SouthWare® combines traditional accounting functions with innovative products and services to make work easier for organizations across many industries. Our family of integrated financial and management information software is tailored for each client to meet specific business needs. A privately owned company, SouthWare is headquartered in Auburn, Alabama. We opened our doors back in 1984 with Version 1. Nearly 25 years—and 14 revisions—later, we are proud to produce a robust and mature product offering for companies of all sizes nationwide.
