**SouthWare Announces the Release of Revision 15–
Featuring Interactive Live Portals for an Enhanced User Interface.**

June 30, 2009 – AUBURN, AL – SouthWare Innovations, Inc., a leading provider of integrated business and financial management software, announced today the official release of Revision 15 to the SouthWare Excellence Series.™

With this upgrade, SouthWare will introduce an enhanced user experience similar to web browsing, which will enable users to conduct business from any internet-accessible location worldwide while providing secure access to critical business data. Interactive, live, roles-based portals will provide clients with a 360 degree view of their business information. This enriched functionality will empower businesses to work faster and more efficiently, which in turn, will facilitate growth, profitability and an accelerated return on investment.

SouthWare NetLink™, the company’s browser-based E-Business tool, provides secured access to company data files from the web. SouthWare’s unique NetLink technology serves as a dynamic springboard for the new user experience.

“The ‘smarts’ that make our product so robust today are still driving the software’s functionality.” said Tim Sanders, Executive Vice President and head of program development. “Revision 15 is even easier to navigate and delivers an unparalleled level of business intelligence to our clients.”

The new revision offers unsurpassed reporting capabilities. Users can view any chart or report from any angle through a combination of filters. Google charts, email integration, Remote Employees, and sales opportunity tracking are also new in Revision 15.

About SouthWare

SouthWare® combines traditional accounting functions with innovative products and services to make work easier for organizations across many industries. Our family of integrated financial and management information software is tailored for each client to meet specific business needs. A privately owned company, SouthWare is headquartered in Auburn, Alabama. We opened our doors back in 1984 with Version 1. Nearly 25 years –and 14 revisions– later, we are proud to produce a robust and mature product offering for companies of all sizes nationwide.
