

# INTERNATIONAL TRANSACTIONS

## Excellence Series Tools

Many U.S. and Canadian businesses have business trading partners - vendors or customers - who are in foreign countries. Transactions with these partners may involve other monetary currencies, and the tracking and reporting of these multi-currency transactions is a challenging task. That's where SouthWare's International Transactions comes in.

### Benefits

- Maintain a database of monetary currencies used by trading partners
- Define the default currency used by each customer/vendor
- Update the effective exchange rates for currencies as often as needed
- Record the currency amounts for selected transactions, including the effective exchange rate
- Display transaction amount information in natural currency or base currency (dollars)
- Analyze unrealized currency exchange gains/losses
- Revalue A/R and A/P open items for changes in exchange rates
- Automatically calculate gain/loss on currency exchange when settling a transaction (typically at payment time)
- Update G/L for currency exchange gains/losses
- Establish special stock item pricing and costing for each currency

The screenshot shows a software window titled "Currency Code Maintenance" with the following fields:

*1. Currency Code	JPY	
2. Description	Japanese Yen	
3. Short Description	Yen	
4. Print Format	999,999,999.99	
Display Format	¥999,999,999.99	
5. Gain/Loss Acct - A/R	7035-010	Gain (Loss) on Currency Exch
6. Gain/Loss Acct - A/P	7035-010	Gain (Loss) on Currency Exch
7. Override Format		

At the bottom right, there are "OK" and "Cancel" buttons, and a status bar showing "DEMOTHIN 07/07/17 92".

International Transactions provides supplemental features to the SouthWare Excellence Series™ so that you can record, track, and report multi-currency transactions involving international trading partners while maintaining your dollar-based internal records. When you add this product to the Excellence Series you activate currency-related features in several different modules.

# FEATURES & FUNCTIONALITY

## CURRENCY CODE DEFINITION

- Five-character code
- Description
- Print/display formatting including symbol, decimal, and negative sign
- Gain/loss accounts for A/R and A/P

## CURRENCY RATE INFO

- Effective date/time
- Enter either rate or factor
- Optional note

## ENTRY OF CURRENCY TRANSACTION INFO
